

# Call it Zona Project

Make a new product to replace the old poly cotton one or two piece overall; design it specifically for the chilled food industry. Drive out costs to the industry. Improve worker morale, make environmentally sound, food safe and compliant.

Neck Elastic no street clothes to be seen

Sleeves water proof clean dry make in two lengths

Chest panel breathes to allow heat to escape

Back Panel generates warmth

\* Waterproof front panel.

Make long to cover work area plus extra

No need to wear jackets underneath

We collect from client

No Metal sips or domes

Pants splash proof; light easy to wear.

Two sizes fit 45 to 120kg?

- \* One set = one person = one day then recycle
- \* Deliver product in PP sacks then we can recycle the whole thing in one go.
- \* Environment; 100% recyclable back to pellet form - make elastic from stretchy PP as well.
- \* Min of > than 25% reduction in disposable clothing
- \* Recycle with contaminates? Okay

Cost; sell for less than cost of laundry?  
Ask Accountant cost of cash

Design Brief	Completed Jan 08	
Engineering approval	Brief Feb 08	Completed July 08
Trial programme	Approved July 09	Completed Sept 09
Signed off by	JL	Sept 09

# Welcome to Zona

If you walk around any chilled food processing room in New Zealand you will see staff wrapped up in an overall that is neither warm, dry nor comfortable to work in.

If you speak to the production managers they will tell you of the constant issues around not having the right size and quantity available and the staffing issues that come with that.

The accountant will constantly be on about the cost of laundry, repairs and replacements.

The Zona product does away with all of that, it is warm, dry and comfortable to wear. It will sell for less than your laundry costs and allows you to reduce your purchase of additional disposable clothing by up to 25% in some cases.

New Zealand now has the facility to recycle the whole Zona project, including all the packaging right back to the original granule form it came from.

## Specifications

### Product codes;

**ZP-XL;** Pants small size

**ZP-XXL;** Pants large size

**ZT-TQS-XL;** Tops three quarter sleeve small size

**ZT-TQS-XXL;** Tops three quarter sleeve large size

**ZT-FS-XL;** Tops full sleeve small size
